

Knights Enham Schools Procurement policy

Purpose

This procurement Policy has been compiled to set out **Knights Enham School's** intentions and goals with respect to reducing the environmental damage associated with materials, products and services purchased for school business. Its purpose is to help embed efficiency and environmental awareness into everyday school business.

Commitment

Knights Enham School's will comply fully with legislation and officially approved codes of practice and will make continued efforts to promote sound environmental management policies and practices in the work of all departments:

"We are committed to responsible environmental management and will focus on sustainability throughout all our premises wherever it's reasonably practical and cost-effective."

Objectives

- To reduce the environmental impact of materials, products and services purchased and used by the school.
- Policy development and management: the integration of sustainability issues within the financial planning and policy development processes of the company, to ensure sustainability is a key consideration of everything we do.
- Data gathering and reporting: Improving our energy monitoring processes so that we can identify and prioritize opportunities to reduce the impact on the environment of the services and goods purchased by **Knights Enham School's**.

Immediate Aims

- Source products with reduced embedded carbon.
- Preference of materials with recycled content.
- Preference for products purchased from local companies.
