Knights Enham Schools

Best Value Statement

The Governors of Knights Enham Schools are committed to achieving Best Value in all decisions made. We use the principles of Best Value as they apply to securing continuous improvement in this school and will:

- Regularly review the functions of the school, **challenging**, how and why services are provided and setting targets and performance indicators for improvement.
- Monitor outcomes and **compare** performance with similar schools and within the school.
- **Consult** appropriate stakeholders before major decisions are made.
- Promote fair **competition** through quotations and tenders to ensure that goods and services are secured in the most economic, efficient and effective way.

We will strive to ensure that the school is using its resources effectively to meet the needs of pupils.

The progress of the annual budget plan and the Best Value statement will be monitored with the School Improvement Plan in order to determine the extent of continuous improvement.

Every year the School Improvement Plan is used to determine priorities for the year ahead, covering challenging targets for pupil achievement, longer term spending priorities regarding resourcing and buildings.

The school will ensure the Best Value will be reviewed and demonstrated in the School Improvement Plan, to set realistic but challenging targets.

The Governors will monitor all these activities as part of the school's development, applying the best value principles appropriately in each case.

We recognise that the way in which these principles are pursued will vary over time and undertake to review this statement annually, with reference to the school's budget and strategic plan
