

## Science

### Living Things and their Habitats

Explore and compare the differences between things that are living, dead and things that have never been alive.

Identify that most living things in habitats to which they are suited and describe how different habitats provide the basic needs of different kinds of animals and plants, and how they depend on each other.

### RE – Bread as a Symbol

We are learning about the symbol of the Harvest loaf and why it is used as a symbol at the festival of Harvest in the Christian church.

We will be designing our own symbol linked to each child's individual interests and then baking and making our own loaves using their symbols.

### PE – Monday and Friday.

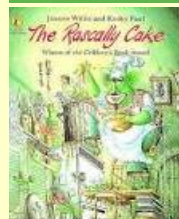

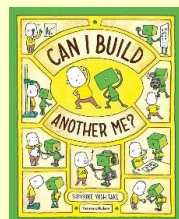

Children will receive two sessions a week. On Monday we will be doing Gymnastics this term, learning to copy and explore gymnastic routines. On Friday we will be learning how to play as a team. Remember, on these days, you come to school in your Knights Enham P.E kit!

## PSHE

### Me and My Relationships

We are using the SCARF programme to learn about classroom rules, listening to others, our feelings and being a good friend.

## ENGLISH

We will be using these short texts to work on our reading and writing skills. We are starting with fact-files and developing our knowledge to make these interesting and informative. After that, we will be looking at instructions, following and giving. Finally, we will be writing a persuasive letter to Mr Whitehouse.

During the term we will be using additional texts both fiction, non-fiction and poetry to support our developing skills and knowledge.

Most importantly however, we are developing a love of reading!

Please do ask the children what they have been reading.

# Getting to know me...

Year 2  
Autumn 1

## MATHS

Children will be continuing to develop their maths skills with particular focus on the following areas.

### Number and Place Value

Counting to and across 100, forwards and backwards. Representing numbers using a variety of resources, progressing to comparing counting in multiples of 10.

### Addition and Subtraction

Recapping our number bonds to 10 which we learnt last year and building on this knowledge to learn our number bonds to 20. From this we will be solving problems using addition and subtraction.

### Measure

Comparing and ordering lengths and using < and >. We will be estimating and using rulers to measure length. We will be learning about money, its symbols and using different coins to make a value.

## Art / DT

We will be learning about Henry Moore and still life art. We will be learning to use a pencil to make line, shape and tone.

## Music

We are beginning our new programme on Kapow, the theme is 'Call and Response' (Animals).

## Geography

We will be looking at England and Andover on a map, using simple mapwork skills and using simple fieldwork and observational skills.
