

## **Art**

In Art we are studying Vincent Van Gogh's 'Starry Night'. We will work towards creating our own version in his style, using paint in our sketch books.

## **Science**

Our Science Topic is 'States of Matter'. So far, we have explored substances and materials which are solids and liquids. Eventually, we will be able to explain the water cycle, which links to our geography topic.

## **Geography**

This term, we will be studying the water cycle, which will support our science lessons where we will be investigating the three states of matter. Our knowledge of the water cycle will then enable us to learn about how clouds are formed so rain can fall. Then, we will investigate the key aspects of flooding and how water pollution is treated.

## **Maths**

Our Maths begins with multiplication and division. We aim to be able to times and divide 2 and 3 digit numbers using a range of methods. It is important to note that we will be having our multiplication tests very soon this year, so please remember to practise with your children!

## **Rivers – Summer 1**

## **PE**

During the first half-term, we will be focussing on basketball and cricket. We are looking forward to learning new skills and being able to apply them into small-sided games.

In addition, during the Summer term, all of the students will be taking part in swimming lessons as part of the P.E curriculum.

## **Writing**

To begin with, we will be reading a book called River Story by Meredith Hooper after which we will be writing our own poems about the exciting, mysterious journey that each river makes. Then, we will be using 'The Water Horse' by Dick King Smith to enable us to develop our letter writing skills.

## **Reading**

This half-term we will be looking at a variety of text types and applying our reading skills to gain a better understanding of each text.

## **RE**

This term, we will be studying the theme of 'Identity'. In order to do this, we will put this concept into context by learning about the Sikh festival of Baisakhi, which celebrates the founding of the Sikh community, the Khalsa, in 1699. Furthermore, we will look at how the festival is celebrated at this time of year.
